

What was a One Day workshop on Storytelling for Leaders for the Researchers at Harvard Business School - India Research Centre on 14th June 2018 turned out to be a ringside view of values in action. The focus was on embellishing the Case writing process with Storytelling to add an engaging narrative as also understand the power of stories to connect and engage with stakeholders. Growth Mindset at its best: incredibly cohesive team, eager to learn, happy to introspect and comfortable with peer feedback, led from the top by **Anjali Raina**. On Day 2, our India team ran a well-constructed, customized Emotional Intelligence program with Geno's report.

A Chinese proverb says, "There is always a teacher for me amongst the three people I am with. 三人行必有我師" – we clearly felt that! An NPS of 88 was the icing on the cake!
